Permits(s) Applied for: 1 - Article 15 Title 5 Dam 1 - Section 401 – Clean Water Act Water Quality Certification.

Project is located: In MULTIPLE TOWNS in MONROE COUNTY

Project Description:
The proposed project involves modification of the existing outlet structures for the Willow Pond Dam (ID #045-5498), which consist of a service and auxiliary spillway. The existing service spillway structure, which consists of a 42-inch riser pipe and 36-inch by 22-inch corrugated metal pipe arch culvert that runs beneath Putting Green Lane, will be replaced with a 5-foot by 5-foot precast concrete drop inlet and 42-inch reinforced concrete pipe. The top elevation of the existing earth berm auxiliary spillway will be increased by 2.5 feet to increase the storage capacity of the pond. The service spillway inlet has been designed to maintain the current normal pool elevation and the existing outlet channel will be regraded to improve alignment with the Tributary to Irondequoit Creek. An updated Emergency Action Plan for this facility has also been developed.
