Ms. Haywood plans to volunteer at the event. Sponsors are still needed. For more information, visit www.penfieldbusiness.org.

Betsy Inglis, Director of the Shepherd Home stated she is grateful to the PBA and Family First for all they do. Shepherd Home is a home for the terminally ill. People are cared for by Shepherd Home volunteers. Betsy thanked the Town for all they have done for the home. The home has been open for eight (8) years.

Amy Yelle, whose Mother in-law was cared for at the Shepherd Home, spoke positively about her family’s experience during the final days of their loved one. Ms. Yelle stated the golf tournament is a worthy cause and that money raised will help the next family who is taken care of at the Shepherd Home.

County Legislator Debbie Drawe spoke about the 2013 Young Citizen of the Year Awards where County Executive Maggie Brooks and Monroe County Legislators have the opportunity to recognize young citizens for the outstanding work they have done. The Rochester Monroe County Youth Board hosted a proclamation ceremony and a reception for all honorees and their families at the Monroe Community Hospital on Thursday, June 13, 2013.

The Penfield Young Citizens who were honored this past Thursday were Connor Grossman, Jackson Grossman, Morgan Andersen, Meghan Frezza, Sarah Pulinski and Marla Roberts.
Legislator Drawe stated that Town Clerk Amy Steklof invited the Youth Award winners to this Town Board meeting so that they could be recognized in front of their community. On behalf of the Town Board, Legislator Drawe presented a Certificate of Recognition to the award winners that acknowledged their dedication to the community, outstanding citizenship, strong character, personal achievements and their visibility as role models.

Supervisor LaFountain stated it is great to see the award winners be so involved with our community and thanked them for all they do.

Town Clerk Steklof stated she had nominated several Penfield students for this award and was pleased that two (2) of her nominees, Morgan Andersen and Meghan Frezza, had been chosen. Town Clerk Steklof continued to say she had nominated these girls due to their positive impact in school, their volunteer efforts and their selfless commitment to giving back to the community.

#13T-147 Granting a Reduction in Area of a Conservation Easement at 28, 32, 36, 40, 44, 48, 64 and 68 Willow Bridge Trail in Phase III of the Windham Woods Subdivision by Moore

WHEREAS, a request has been received by the Penfield Town Board to a reduction in the area of a Conservation Easement at 32, 36, 40, 44, 48, 64 and 68 Willow Bridge Trail in Phase III of the Windham Woods Subdivision; and
WHEREAS, the Town Board of the said Town of Penfield held a Public Hearing at the Penfield Town Hall, 3100 Atlantic Avenue, in the Town of Penfield, New York on May 15, 2013, at 7:30 PM on said date, to consider the request for a reduction of width of a Conservation Easement on the rear of properties located at 32, 36, 40, 44, 48, 64 and 68 Willow Bridge Trail in Phase III of the Windham Woods Subdivision to hear all persons interested on the question said request; and

WHEREAS, during the Public Hearing, an additional request for reduction of the Conservation Easement was made by the owners of 28 Willow Bridge Trail to create consistency along all the rear property lines of Willow Bridge Trail where the easement is located; and

WHEREAS, after the Public Hearing was closed and the Board reserved it decision based on the applicant meeting with the involved neighbors and directing the Town Engineer to confer with the Town’s Landscape Consultant to address criteria for the installation of a row of trees within the Conservation Easement to create additional buffer;

NOW, THEREFORE, BE IT RESOLVED, that the Penfield Town Board is best suited to act as “lead agency” within the meaning of the State Environmental Quality Review Act (SEQRA) and thus does hereby designate itself as “lead agency” pursuant to SEQRA; and be it further

RESOLVED, that the subject application is determined to be Type II action pursuant to the State Environmental Quality Review Act (SEQRA); and be it further

RESOLVED, that the Town Board of the Town of Penfield hereby GRANTS the applicant’s request to reduce the width of the existing Conservation Easement from twenty-five (25) feet to twelve and one half (12.5) feet subject to the following conditions:

1. The applicant shall be required to meet with the Town’s Landscape Consultant and involved property owners on both Crossbow Drive and Willow Bridge Trail to determine the types of trees to be planted within the revised 12.5 foot Conservation Easement. Said trees, once identified, shall be planted at the direction of the Landscape Consultant at an interval of no more than 10 feet along the rear properties of 28, 32, 36, 40, 44, 48, 64 and 68 Willow Bridge Trail. The applicant, even though the Conservation Easement is not located on that lot has also offered to install plantings on the rear of the property at 24 Willow Bridge Trail to maintain consistency along the rear property line as well, resulting in additional plantings on lots 306 through 312 as shown on the “Conservation Easement Adjustment Sketch” prepared by Costich Engineers reviewed by the Board on this date. The exact placement of the trees is subject to agreement of the immediate neighbors, fully respecting any existing, mature trees on their properties. Placement of the new trees will be wholly within the 12.5 ft easement. This will ensure the long term preservation of the new plantings. The exact specie of trees is subject to negotiation between the Town and the Developer with the objective of maximizing the visual barrier.

2. The applicant shall be responsible for the care and maintenance of said trees until such time as the lot on which they are planted is sold.

3. The applicant shall be responsible for the preparation of a new legal description and map identifying the revised boundaries of the Conservation Easement and shall execute a Release of Easement in a form acceptable to the Town Attorney. The costs associated with the recording of said Release of Easement shall be borne by the applicant.
(Resolution #13T-147 - Continued)

4. The applicant shall ensure that positive drainage is maintained to the rear of the properties on Willow Bridge Trail and Crossbow Drive subject to the requirements of the Town Engineer; and be it further

RESOLVED, that the Board bases its decision on its findings that:

1. The applicant has requested a 50% reduction in the width of the existing Conservation Easement in order to provide additional usable space to the rear of the residences on properties located at 32, 36, 40, 44, 48, 64 and 68 Willow Bridge Trail. The lots are shallow without the easement and the inability of potential purchasers to install swimming pools, sheds and other amenities without encroaching upon the existing Conservation Easement made the lots undesirable.

2. The majority of vegetation remaining between the properties on Crossbow Drive and Willow Bridge Trail does not effectively buffer the neighbors from each other. The applicant proposes to install a more effective year around buffer within the reduced 12.5 foot Conservation Easement, subject to Town Board approval. The Board believes that the applicant’s proposal will result in a visually effective buffer that would not exist without his proposal to reduce the size of the Conservation Easement.

3. All of the neighbors involved in the review process are supportive of the applicant providing additional landscaping to supplement the existing vegetation between their properties.

4. The applicant’s proposal preserves the existing mature vegetation within the existing Conservation Easement as the majority of it is situated in the 12.5 portion that will remain as Conservation Easement area.

5. The applicant’s proposal also makes the properties within his subdivision more marketable and provides additional personal recreation space on the subject lots.

6. The owners of 28 Willow Bridge Trail who have recently purchased that property and had requested inclusion in the reduction of the Conservation Easement also benefit from applicant’s proposal as the Board has included their property in the reduction to provide continuity within the neighborhood. They will also benefit from the reduction in that they will have additional recreation area and additional buffering from their neighbors on Crossbow Drive.

7. The properties located at 64 and 68 Willow Bridge Trail are heavily buffered as there is a designated wetland adjacent to those sites. The applicant will not be required to install any additional landscaping on those properties.

6. The applicant has demonstrated that his base of operation has adequate landside support to conduct the business as proposed in that it has adequate parking and toilet facilities for his employees. While no cooking will be done on site, there is adequate storage for materials that support the operation without compromising the existing businesses that currently operating at 1350 Empire Blvd. Further, all refuse associated with this business will be removed from the pontoon boat on a daily basis and placed in the dumpster at 1350 Empire Blvd. In addition, the applicant is proposing to provide each patron with a refuse bag to properly dispose of the waste generated by the sale, as well as any waste on board the patrons’ boats in an effort to keep Irondequoit Bay free of junk and debris.
