The Town of Penfield will be conducting a Town-wide reassessment this year. Reassessment is part of the regular property valuation process which occurs in communities throughout New York State.

Town-wide reassessment ensures all properties throughout the Town are assessed at the same time and in a uniform manner. This practice creates a fair and equitable system for all Penfield property owners **based on current market value**.

Reassessment does not automatically mean your taxes will increase. For many, taxes may remain nearly the same or even decrease.

The process will be completed beginning in February 2022. In the coming weeks, a mailing will be sent from the Assessor's Office outlining the process.

The Town website offers a wealth of resources and assists in answering questions regarding the reassessment process. For more information, visit www.penfield.org/assessment.
